

P. 799-801: Inserting into a `list<T>`

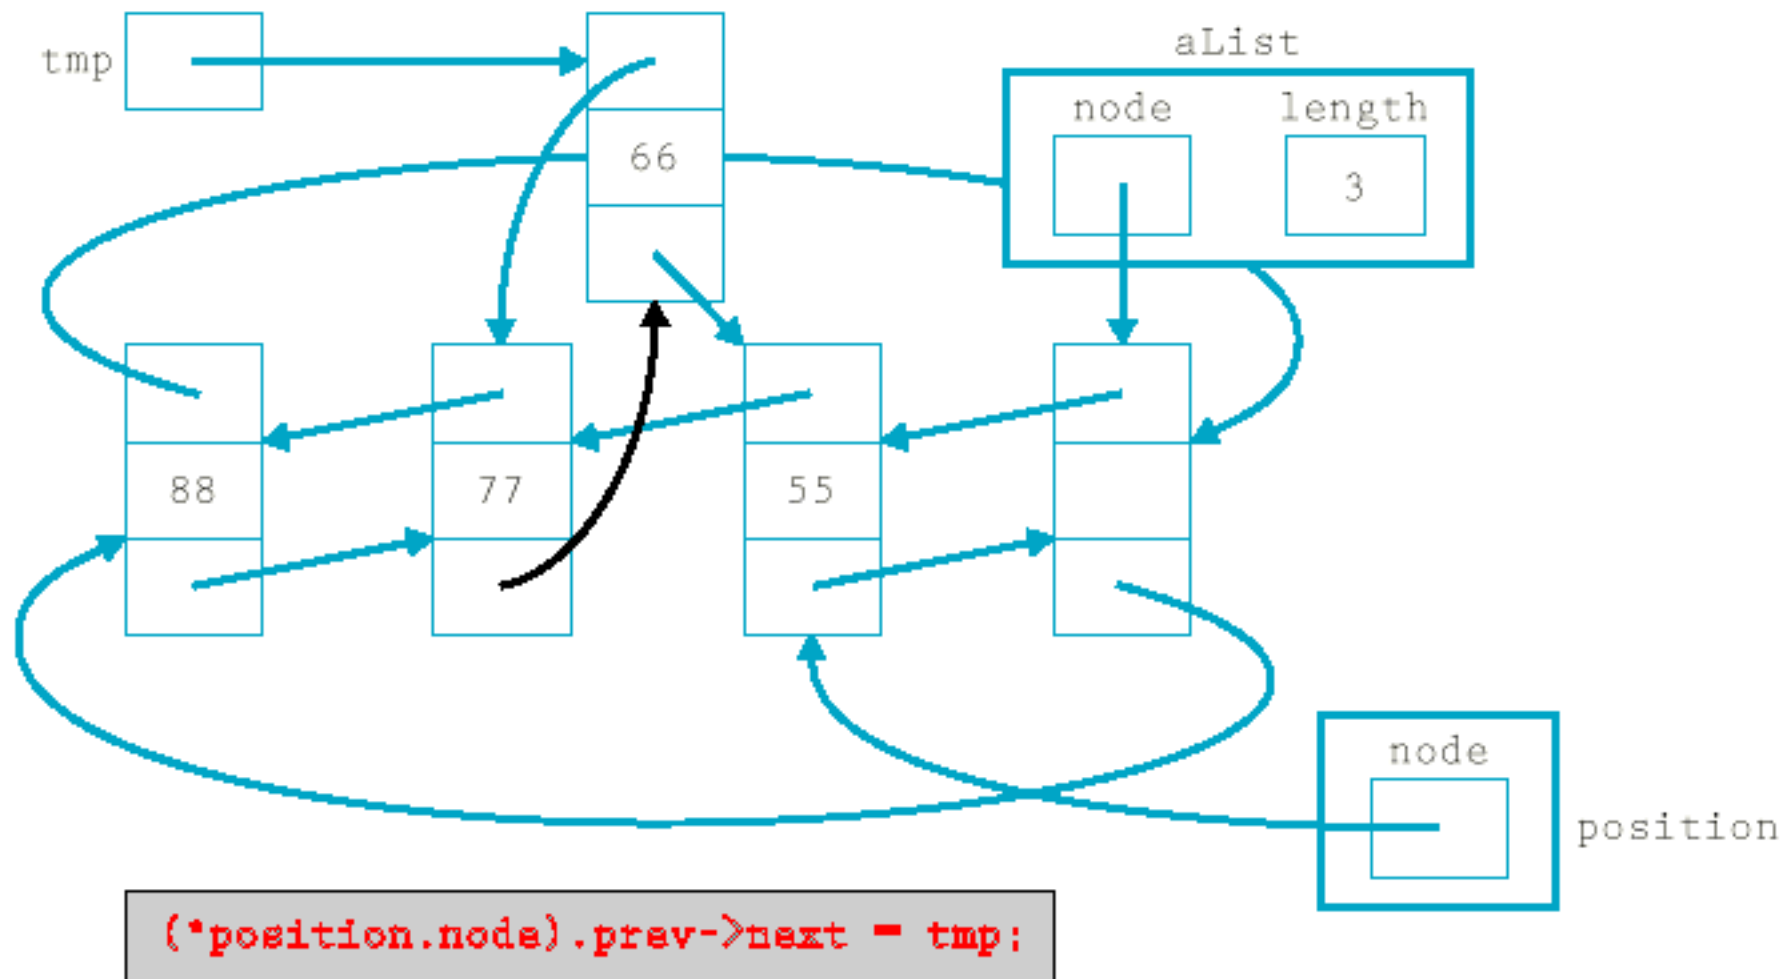

```
aList.insert(position, 66);
```

1.

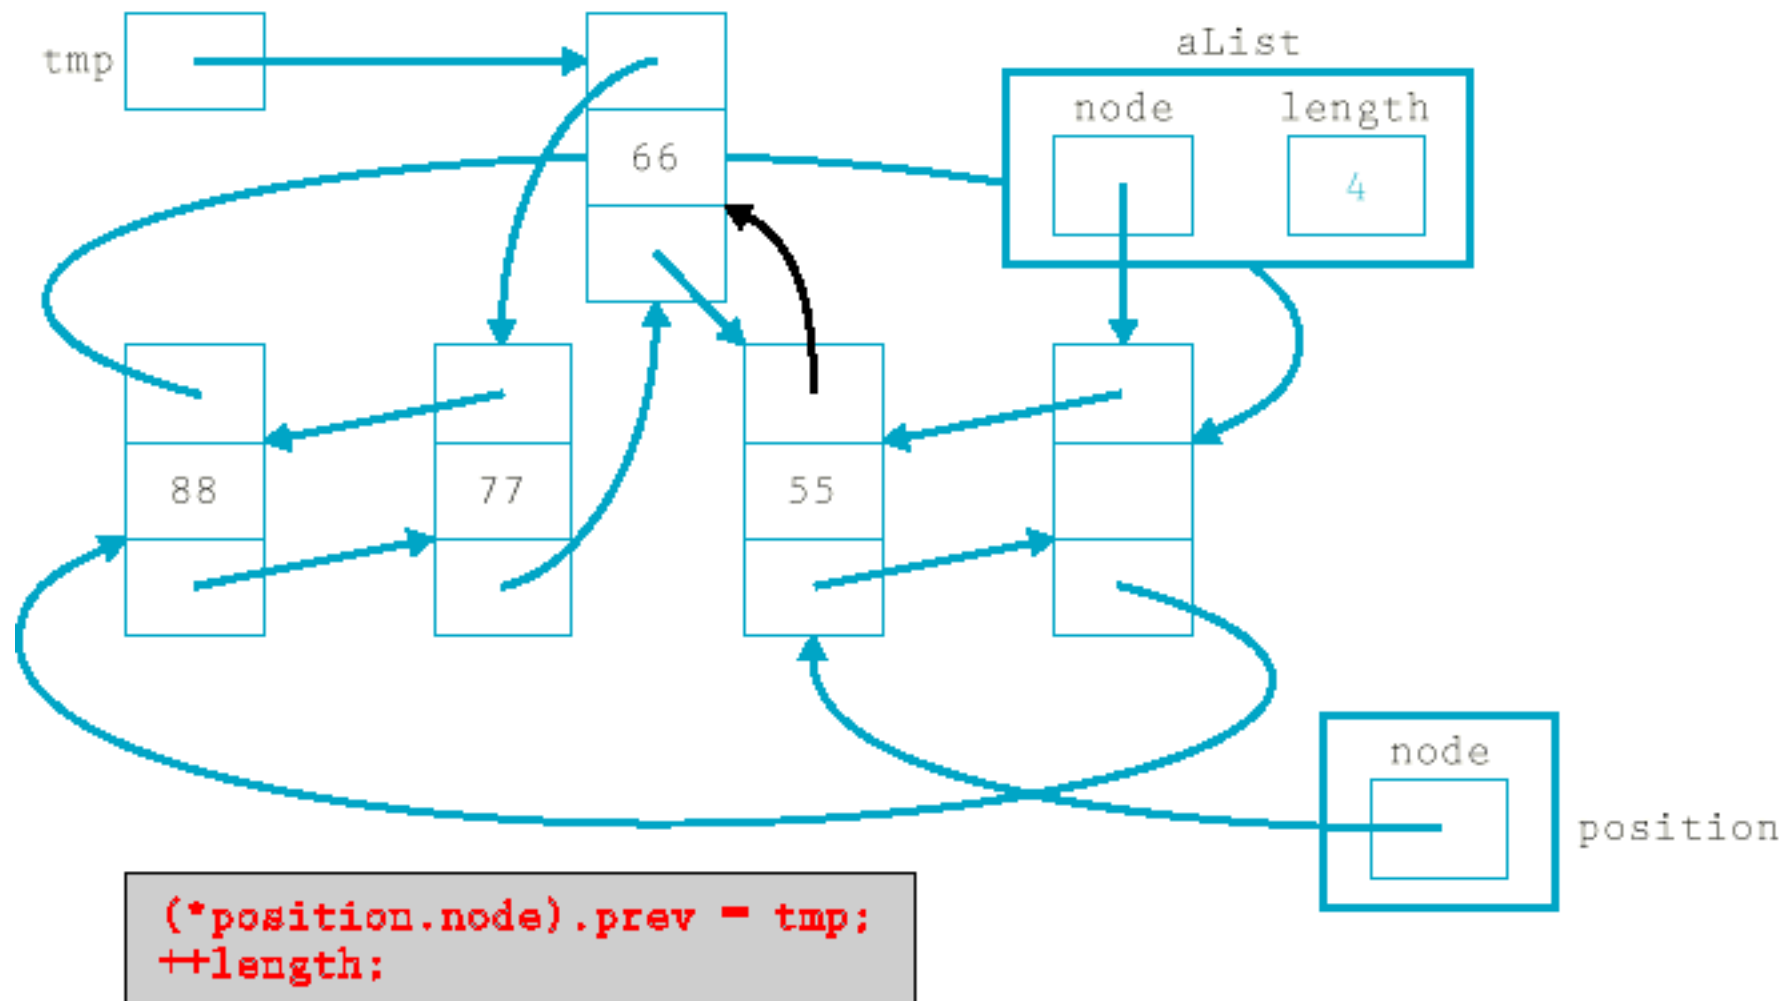

```
tmp = new list_node;  
tmp->data = newValue;  
tmp->next = position.node;  
tmp->prev = (*position.node).prev;
```

2.

3.

Final Result:
