

PP. 772-3: Pointers to Arrays

```
double dArray[10],           // array of 10 doubles
* ptr = dArray;              // pointer to first element of D
```

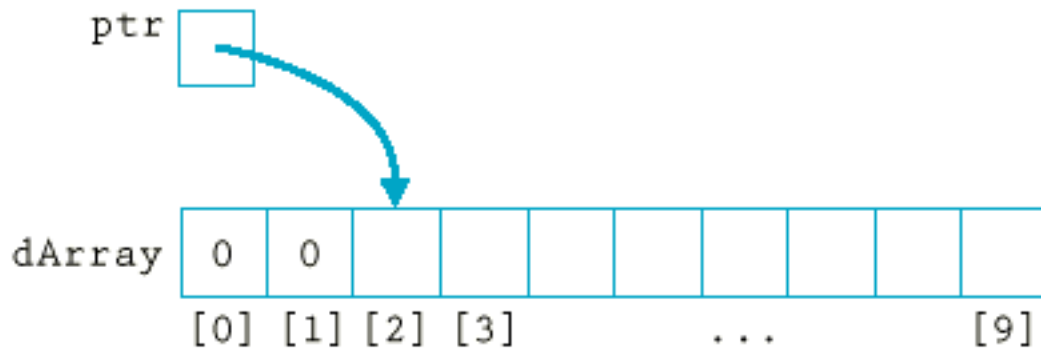

```
for (int i = 0; i < 10; i++)
{
    *ptr = 0;
    ptr++;
}
```

After first pass through the loop:

After second pass:

After last pass:
